WATCHING OVER

Do you ever wish you could give your children the freedom you had as a youngster, walking home from school with pals, playing at the park until the rumbling tummy indicated it was time to go home? Well, allow us introduce the new SOS GPS Watch Phone, which lets you locate, monitor and communicate with your little ones via your mobile phone. Very excited we are about this new tech development.

€139.95. For information, visit www.watchovers.com.
